## KNOWLEDGE ON THE MOVE

**Nova Train** is your partner for customized project management learning. We adapt our training modules to suit every organization's needs and objectives.

### **Engaging and dynamic trainings**

Each training session is an interactive journey based on practical exercises, role-playing, workshops and the application of methodologies within your company. We ensure that no one is left behind.

### **Cutting-Edge Expertise, a Fresh Approach**

We focus on real-world cases drawn from experience in international companies, always delivered with the refreshing tone that defines us.

### **Efficiency for Large Enterprises**

Our training programs are pragmatic, designed to facilitate the adoption of solutions without ever compromising quality. Learning is a journey that drives change. Hop on board as we embark on a path to smoother, more efficient project management.

# Our Training Programmes

---

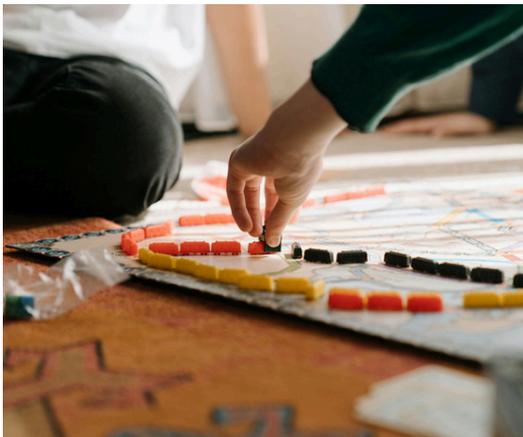

Our training programmes are available in English and in French, in face to face or remote.

## MANAGE A PROJECT 101

2-3 days

An intensive and practical programme to manage a project end-to-end. From the opportunity analysis to its deployment, including risk analysis, team creation, and project steering tools. All adapted to your professional context and objectives.

## SUPPORT CHANGE FOR A PROJECT

1 day

A programme designed to conduct the diagnosis, plan and execute a change plan and monitor results to take corrective actions. All focused to put the whole organization in motion to foster collective acceptance and reduce resistance.

## DEVELOP CREATIVITY

2 days

An immersive and thought-provoking training program to foster creativity both at individual and collective levels. In this training, participants will learn how to conduct true brainstorming, how to use lateral thinking and other tools like the SCAMPER method. Let's provoke the status quo to generate brilliant ideas and make them a reality.
